Letters to her father from 1930-1936

July 21, 1935

Dear Daddy,

....I am making two new dresses for summer, they are blue & brown both of them are voile. I have got a different pattern for both of them, but I don't like the skirt on one so I have made it a different style. I like to make dresses, darn stockings, and sew on patches so I will never be bored by having to do them. When I see what other girls like to do at my age I feel rather old fashioned liking to do these things. Don't think I don't like to have a good time though. As soon as anybody mentions a good time I'm ready for it.
